

Dear WASC participants.

Greetings from snowy Niseko!

I hope that you are all very excited to be coming to Niseko in a few weeks time. We have had fantastic snow falls this season.. over 10M or 30feet of superb powder has fallen and a base over 3M!

All our team members are working very hard to prepare for your events including great parties and we are bringing over the Balboas from Sweden! Those that went to Björkliden in 2009 or Schladming in 2010 will know how great they are.

However, we understand from some of you that there are some concerns about food quality/safety or radiation from the Fukushima disaster. As part of a coordinated and concerted effort by all Hilton Hotels & Resorts in Japan, we have been working with our suppliers to ensure that our food products are sourced from non-affected areas and tested by professionals to ensure its safety. The safety and wellbeing of our guests remains our priority and we will continue to exercise caution and stringent control to ensure that our supplies are of the highest quality.

We are committed to ensure all WASC participants will experience the best WASC ever in Niseko!

Looking forward to welcome you all to Hilton Niseko Village next month in March 2012!

Darryl Marsden  
General Manager, Hilton Niseko Village
